

Stand Against Immorality!

Our times are definitely changing. If the truth be told, many know of situations in local churches where teenagers go to proms, wear the typical low-cut prom dress, and dance. Unfortunately, many parents and elders turn their heads the other way and ignore it while preachers fail to preach against it. In fact, you can even see preachers who wear short shorts today, so it is not surprising to see members in mini-skirts, bathing suits, and short shorts. It is not at all unusual to hear of members who drink at home and who drink socially. It has become common for Christians to attend R-rated movies in which premarital sex and fornication are common. Is it any wonder why divorce is so rampant in churches? The consequence of an immoral lifestyle is that those who practice it do not want to hear strong preaching. Make sure that our young people have godly guidance by preaching the hard truth and setting a good example.
